Your Special Day

As Unique As You Are....

Here at LOST, we like to do things differently - that's why we have parked the packages and are shunning the 'one size fits all' approach to wedding planning in favour of individually curated celebrations that are all about you!

We understand that every couple is different and you all have your own vision on how you would like your wedding day to unfold. We love quirky and celebrate individuality but we also treasure traditional touches. So whatever you have in mind we can plan a day to suit you and all your lovely guests!

Your Ceremony

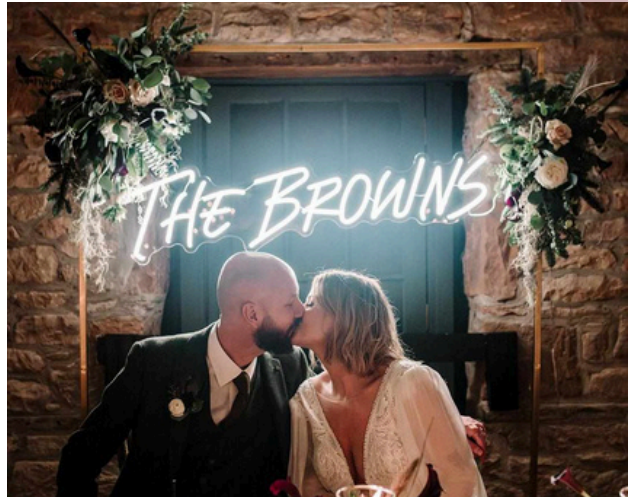

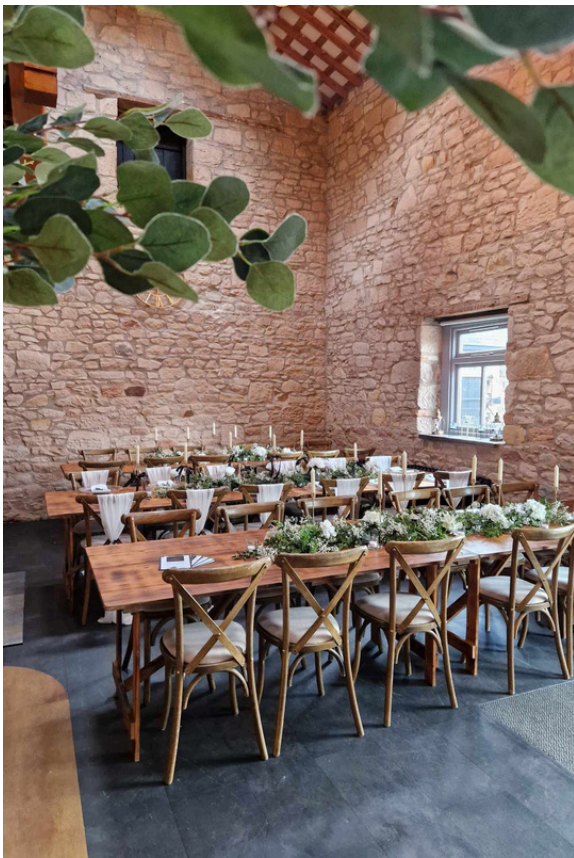

From upstairs ceremonies on our mezzanine, looking down at your friends and family, to more traditional set ups in our loft area and accessible celebrations downstairs, our whole venue is licensed for your special vows.

For couples saying 'I Do' at a Church or Registry Office, we can still do a special welcome drink or cocktail hour before your wedding breakfast or reception - your vision is our mission!
